Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Receipt is acknowledged of the amendment filed 07/26/02.

The rejections under 35 USC 112, first and second paragraph, and 35 USC 101 are hereby withdrawn. The rejections of claims 1-17 and 29-32 under 35 USC 102(b) over Eggink et al, and Marchessault et al, and 35 USC 102(a) over Martin et al, as well as Williams et al are hereby withdrawn.

The rejection under 35 USC 102(e) over Sankaram is maintained in this action:

Response to Arguments

Applicant's arguments filed 07/26/02 have been fully considered but they are not persuasive.

With regard to the rejection under 35 USC 102(e) over Sankaram, applicant argues that the composition of Sankaram does not teach that the material is administered to cells or tissue, but rather undergoes conversion from prodrug to physiologically active substance upon interactions with the intracellular medium , cells or tissue"... This clearly indicates that the prodrug is delivered to these cells or tissues, and falls within the scope of the term "administered" as used by applicant. Applicant is therefore requested to explain how this chemical change in the cells or tissues occurs, if it is not via drug delivery to those very sites.

Further, applicant is reminded that the composition claims do not depend upon their intended use for patentability. In this case, the use of the composition for the repair or augmentation of tissue is just that, and does not differentiate the claimed

composition form that set out by Sankaram. As such , the instant claims are anticipated by Sankaram, and the rejection under 35 USC 102(e) is maintained in this action.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
